Catalogue of designated testing methods (Prüfverfahren)

(sorted by testing scope (Prüfgebiet) and subscope (Prüfumfang))

The designation covers the regulatory acts listed in this annex to the designation certificate, which are published in their current versions in the underlying Scope classification directory. The Technical Service is authorized to apply the designated regulatory acts in their currently valid versions. The Technical Service maintains an up-to-date list of all designated regulatory acts, including their current versions.

Specifications and standards quoted in testing methods as given below are included in the designation.

Categories are used as defined in the respective legal framework acts.

Scope and categorizing of test procedures refer only to the designation in general and do not allow any conclusions about the scope of possible single sites.
